SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS	Backend: Node.js, Express.js
Database: MongoDB, Supabase	Tools: Git, GitHub, VS Code
Languages: Java, Python	Other: REST APIs, Responsive Web Design

EDUCATION

Silver Oak University – B.Tech – Computer Engineering | CPI: 8.33 | 2023 – Present

XII (GSEB) – Swami Vivekanand Vidhyalaya, Anjar | 70.2% | 2023

PROJECTS

Dopefolio – Interactive 3D Portfolio Website ([VIEW](#))

Tech Stack: React.js, Node.js, Express.js, Three.js

- Built an interactive 3D portfolio website with smooth animations and immersive visual experiences to showcase projects and skills.
- Designed a fully responsive, performance-optimized UI with dynamic 3D elements and seamless navigation across all devices.

F1 3D Interactive Experience – Formula 1 Fan Platform ([VIEW](#))

Tech Stack: Next.js, TypeScript, Tailwind CSS, Framer Motion, GSAP, Three.js

- Built a 3D Formula 1 website with immersive animations, dynamic video backgrounds, team showcases, and detailed driver profiles.
- Integrated live F1 season updates including race schedules, standings, and results with responsive audio-visual interactivity.

Stack-Social – Full-Stack Social Media Platform ([VIEW](#))

Tech Stack: Next.js, React.js, Node.js, Express.js, Supabase, Socket.io, Tailwind CSS

- Developed a full-stack social media platform with posts, likes, comments, sharing, following, and real-time messaging.
- Implemented stories with music, follow-request management, personalised feeds, user profiles, and secure authentication.

Apna-News – News Aggregator Platform ([VIEW](#))

Tech Stack: React.js, Node.js, Express.js, MongoDB, News API

- Built a responsive news platform fetching real-time articles across multiple categories via News API.
- Added search, category-wise filtering, and article management with efficient backend and MongoDB integration.

PARTICIPATIONS

Hackathons

- Participated in the college Hackathon, gaining hands-on experience building real-world solutions under time constraints.
- Participated in the Flipkart Grid Hackathon, enhancing problem-solving skills and deepening technical knowledge.
- Both experiences helped connect with like-minded peers and expand my network within the broader tech community.
